WHY CHOOSE RIVER CITY HOSPICE?

Compassionate care. Fast response. Strong communication. Family-centered support.

Our commitment is to help patients and families experience hospice care with timely response, clear communication, physician collaboration, education, and coordinated support throughout our service area.

DIRECT PHYSICIAN COMMUNICATION

We coordinate with physicians throughout the hospice journey—including admission coordination, ongoing updates, changes in condition, and end-of-life notifications and support.

TIMELY REFERRAL RESPONSE

We recognize that a referral can come at a stressful moment. Our goal is to respond promptly, streamline the referral process, complete assessments efficiently, and help patients receive support as soon as appropriate.

DME & SUPPLY COORDINATION

We coordinate necessary hospice-related equipment and supplies, which may include hospital beds, oxygen, wheelchairs, mobility and safety equipment, and other items identified in the plan.

PATIENT & FAMILY EDUCATION

We help explain hospice services, what to expect, symptom management, changes in condition, care planning, and available resources—so families can ask questions and feel more informed.

HOSPICE PHILOSOPHY

We believe patients deserve comfort-focused care that respects dignity and personal goals. Our approach emphasizes symptom support, emotional and spiritual needs, and meaningful time with loved ones.

LOCAL, RESPONSIVE SUPPORT

Our service-area approach emphasizes local presence, consistent communication, responsive coordination, and compassionate support for patients, families, and referral partners.

FOR REFERRAL PARTNERS

ONE POINT OF COORDINATION

A clear contact for referral questions and admission coordination.

STATUS COMMUNICATION

Updates regarding admission, ongoing care, changes in condition, and care coordination.

EDUCATION & COLLABORATION

Support for families and coordination with physicians, facilities, and other care professionals.

Our commitment: compassionate care, fast response, strong communication, and family-centered support.
